TO THE

MATHEMATICAL GAZETTE

No. 323, FEBRUARY 1954—No. 326, DECEMBER 1954

1. Articles.
2. Mathematical Notes.
3. Reviews and Notices.
4. News of Branches.
5. Gleanings Far and Near.
6. Correspondence.
7. Miscellaneous.

ARTICLES.

Author.	Title.	Page.
J. S. Batty.	Some properties of pure recurring decimals.	90
T. A. A. Broadbent.	Presidential address. Printer's ink and the teacher.	81
K. E. Bullen.	Euler's equation and (p, r) coordinates.	172
	Conversion of variation problems into isoperimetrical problems.	249
E. D. Camier.	Some theorems on conics.	18
G. R. Clark.	A multi-purpose visual aid.	244
J. L. B. Cooper.	Mathematical monsters.	258
M. P. Drazin.	The invariant circles of a bilinear transformation.	26
C. Gattegno.	Mathematics and the child. III.	11
A. W. Gillies.	Some remarks on the general power and exponential functions.	266
H. Goldenberg.	Complex roots of a transcendental equation.	161
H. V. Lowry.	Units and dimensions.	181
J. Maclean.	Why teach mathematics?	96
K. Mahler.	A problem in elementary geometry.	241
E. A. Milne.	The teaching of mechanics in school and university.	5
V. D. Naylor.	The stream function and the velocity potential function.	30
E. H. Neville.	Oblique pedals.	166
E. J. F. Primrose.	Real projective geometry.	185
P. S. Rau.	Parabolas related to a triangle.	253

1509305

Author.	Title.	Page.
F. Underwood.	Notes on differential equations.	175
A. G. D. Watson.	The Sturmian theory of oscillations.	15
Annual General Meeting of the Mathematical Association, 1954.		1
Report of the Council for 1953.		2

MATHEMATICAL NOTES.

Author.	No.	Title.	Page
W. R. Andress.	2435	Approximations for coth θ and an expansion of $f(x)$.	197
A. J. L. Avery.	2463	Maximum range of a projectile on any plane.	286
W. Barrett.	2438	Fermat numbers.	204
F. Bowman.	2440	On the length of the arc of a curve.	204
J. G. Brennan.	2460	A model of a developable surface, showing its edge of regression.	281
J. Burr.	2468	Proof of a theorem on determinants.	292
	2469	On Note 2263 (Maxima and minima).	293
C. J. N. Candy.	2452	Bifid operators.	270
G. W. Caunt.	2447	Isosceles.	211
V. G. Cavallaro.	2432	Expressions for the axes of the Brocard and Lemoine ellipses.	194
B. W. Conolly.		*See* A. E. Williams.	
H. J. Curnow.	2474	A method of treating the equations (i) $y=(Ax^2+B)/x$, (ii) $y=(ax^2+bx+c)/(px+q)$.	297
	2475	Circles in contact.	297
A. R. Curtis.	2436	Some elliptic integrals.	199
A. D. Denton.	2418	A perpetual calendar.	137
S. Dixon.	2423	A note on the null plane.	139
C. E. Easthope.	2442	Note on Foucault's pendulum.	206
M. F. Egan.	2408	Note on matrices.	129
I. A. Evans.	2470	An introduction to quaternions.	293
D. F. Ferguson.	2419	A pretty series.	138
	2464	Some properties of the triangle.	288
J. Gagan.	2458	Geometric proof of an inequality.	280
	2459	A diagram to illustrate the geometric series.	281
C. Gattegno.	2443	The idea of dynamic patterns in geometry.	207
J. E. C. Gliddon.	2461	Vectors in plane kinematics.	282
D. L. Goldby.	2410	A simple method for the approximate estimation of standard deviation.	131
F. M. Goldner.	2385	Some forms of the equation of a conic.	36
R. L. Goodstein.	2425	A note on convergence.	140
	2437	On functions of the roots of a quartic.	202
	2454	A problem in linear differential equations.	275
E. K. Greatrix.	2422	Note on $f(D)\{e^{ax}V(x)\}$.	139
H. G. Green.	2473	A lacuna and a mis-statement in the usual treatment of plane sections of the quadric.	296
R. K. Guy.	2420	On alternating series (Note 2279).	138
D. M. Hallowes.	2472	Cross-ratio of a one-one correspondence.	295

Author.	No.	Title.	Page
W. Hope-Jones.	2466	Geometrical proof of the tangent-intercept property of the three-cusped hypocycloid.	290
A. J. Howie.	2441	On Note 2117 : a geometrical construction for the harmonic mean.	205
H. P. Hudson.	2471	On Note 2280.	295
A. Hurrell.	2448	The cosine rule.	212
M. Jackson.	2431	On tangents and normals (Note 2330).	193
J. E. Jayasuriya.	2411	The integration of the school curriculum in mathematics.	131
G. R. Langdale.	2398	*Wisden's Cricketers' Almanack* and the teaching of statistics.	118
J. Leech.	2396	An impossible construction.	117
	2397	Is there any connection?	118
E. H. Lockwood.	2462	Single letters for angles.	285
H. V. Lowry.	2414	On Note 2222.	135
H. V. Mallison.	2401	Two geometrical fallacies.	122
D. G. R. Martin.	2404	A circle construction.	125
F. G. Maunsell.	2449	The flexagon and the hexahexaflexagram.	213
	2467	A problem in statics.	291
E. A. Maxwell.	2406	A science lesson.	126
B. M. McKenzie.	2450	Random digits.	214
N. W. McLachlan.	2426	An oscillation problem involving elliptic integrals of the first and second kinds.	141
D. M. Milton.	2453	Observations on the nature of demonstrative evidence (Thomas Beddoes).	272
A. J. Moakes.	2429	A property of the semicubical parabola.	191
A. Moessner.	2421	Two problems.	139
E. H. Neville.	2384	An experiment in notation.	35
	2405	Notes on conics. 17 : Salmon's theorem.	125
	2412	A new proof of the multinomial theorem.	134
	2430	Products of lengths of tangents and of normals.	192
	2439	On Note 2383 : Pythagorean triangles.	204
H. W. Parsons.	2390	Some geometrical properties of the centre of pressure.	42
N. J. C. Peres.	2387	A note on the reversion of numbers.	38
H. Perfect.	2428	A remark about boundaries of regions.	190
G. Power.	2394	The associated Legendre polynomial.	115
E. J. F. Primrose.	2395	Note on Dr. Maxwell's article, " Some properties of the nine-points circle ".	116
M. Rumney.	2457	A congruence property of the terms of a series.	279
J. Satterley.	2392	The nedians of a plane triangle.	111
L. R. Shenton.	2388	The continued fraction for $F(a, 1 ; c ; t)$.	39
H. Simpson.	2424	Light transmitted through a pile of parallel plates (Note 2269).	140
L. J. Slater.	2407	A note on equivalent product theorems.	127
G. S. Smith.	2451	On Note 2410.	214
N. H. Smith.	2386	Hypotenuse numbers.	37
B. Spain.	2416	The reduction of the conic and quadric to standard form.	136
	2417	Foci of a conic.	137

Author.	No.	Title.	Page.
R. R. Stoll.	2413	On Note 2186 : Sylvester's law of nullity.	134
B. A. Swinden.	2391	Johann Kepler: *Paralipomena ad Vitellionem.*	44
V. Thébault.	2433	Sur l'hyperboloïde des hauteurs d'un tétraèdre.	196
	2434	A propos de triangles rectangles.	196
	2455	Hexagone associé à un triangle.	277
	2456	Angle et points de Brocard d'un triangle.	278
A. W. Walker.	2402	Approximating to an ellipse by circular arcs.	123
	2403	The centre of curvature of a conic.	123
D. A. T. Wallace.	2399	The Hessian solution of the cubic.	120
	2400	Calculation of curvature and torsion of a twisted curve.	121
	2445	Interpretation of the correlation coefficient.	209
C. Walmsley.	2446	On the area of a square.	210
G. L. Watson.	2409	Bridge problem.	129
D. F. Bevis White.	2465	The three regular polyhedra obtained by stellating a regular dodecahedron.	289
A. E. Williams and B. W. Conolly.	2427	The value of a product whose factors are liable to error.	190
R. C. Yates.	2393	Indeterminate forms and l'Hospital's rule.	113
Anon.	2444	A fable.	209
Edit.	2415	On Note 2263 : maxima and minima.	136

REVIEWS AND NOTICES.

Author.	Title.	Reviewer.	Page.
L. D. Adams.	A background of primary school mathematics.	*H. M. Cook.*	238
